SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet. The doctor can contact The National Poisons Information Service: Dial 0344 892 0111 (24 h service). Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

Inhalation

Bring the person into fresh air and stay with him/her.

Skin contact

Immediately remove contaminated clothing and shoes. Ensure that skin, which has been exposed to the material, is washed thoroughly with soap and water.

Eye contact

Remove contact lenses. Flush eyes with plenty of water or salt water (20-30°C) for at least 15 minutes and continue until irritation stops. Make sure you flush under the upper and lower eyelids. Seek medical assistance immediately and continue flushing.

Ingestion

In the case of ingestion, contact a doctor immediately and bring the safety data sheet or label. If the person

is conscious, give them water. DO NOT try to induce vomiting, unless this is recommended	d by a doctor.
Hold head facing down to prevent vomit returning to the mouth and throat. Prevent shock b	
injured person warm and calm. Initiate immediate resuscitation if breathing stops. If uncons	
injured person into recovery position. Call an ambulance.	,
Burns	
Not applicable	
4.2. Most important symptoms and effects, both acute and delayed	
Tissue-damaging effects: This product contains substances with skin corrosive properties.	Inhaled vapour
or aerosols may produce adverse effects to lungs, -irritations and burns in the respiratory of	
as coughing. Dermal contact and contact with the eye cause irreversible effects.	5
This product contains substances, which may cause irritation upon exposure to skin, eyes	or lungs.
Exposure may result in an increased absorption potential of other hazardous substances a	
exposure.	
4.3. Indication of any immediate medical attention and special treatment needed	
IF exposed or concerned: Get immediate medical advice/attention.	
Information to medics	
Bring this safety data sheet.	
SECTION 5: Firefighting measures	
5.1. Extinguishing media	
Recommended: alcohol-resistant foam, carbonic acid, powder, water mist.	
5.2. Special hazards arising from the substance or mixture	
If the product is exposed to high temperatures, e.g. in the event of fire, dangerous catabolic	c substances are
produced. These are: Some metal oxides. Fire will result in dense black smoke. Exposure	
products may harm your health. Fire fighters should wear appropriate protection equipmen	
containers, which are exposed to fire, should be cooled with water. Do not allow fire-exting	
enter the sewage system and nearby surface waters.	aloring fractor to
5.3. Advice for firefighters	
Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon	direct exposure
contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain	n further advice.

8.2. Exposure controls

Compliance with the accepted occupational exposure limits values should be controlled on a regular basis. General recommendations

Observe general occupational hygiene standards.

Exposure scenarios

There is no appendix to this safety data sheet.

Exposure limits

Professional users are subjected to the legally set maximum concentrations for occupational exposure. See occupational hygiene limit values above.

Appropriate technical measures

Ensure emergency eyewash and -showers are clearly marked.

Hygiene measures

In between use of the product and at the end of the working day all exposed areas of the body must be washed thoroughly. Always wash hands, forearms and face.

Measures to avoid environmental exposure

Keep containment materials near the workplace. If possible, collect spillage during work.

Individual protection measures, such as personal protective equipment

Generally

Use only CE marked protective equipment.

Respiratory Equipment

In case of spray application: Use mask with particle filter S/SL

Skin protection

Dedicated work clothing should be worn. Wear a protective suit in the event of prolonged periods of work with the product.

Hand protection

Household gloves

Breakthrough time: > 480 minutes (Class 6)

Eye protection

Wear safety glasses with side shields.

According to EC-Regulation 2015/830
