Inhalation				
	nto fresh air and stay with him/her.			
Skin contact				

#### Skin contact

Immediately remove contaminated clothing and shoes. Ensure that skin, which has been exposed to the material, is washed thoroughly with soap and water.

## Eye contact

Remove contact lenses. Flush eyes with plenty of water or salt water (20-30°C) for at least 15 minutes and continue until irritation stops. Make sure you flush under the upper and lower eyelids. Seek medical assistance immediately and continue flushing.

Burns Not applicable A2. Most important symptoms and effects, both acute and delayed This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of exposure. A3. Indication of any immediate medical attention and special treatment needed IF exposed or concerned: Get immediate medical advice/attention. Information to modics Bring this safety data sheet. SECTION 5: Firefighting measures 5.1. Extinguishing media Recommended: alcohol-resistant foam, carbonic acid, powder, water mist. 5.2. Special hazards arising from the substance or mixture Nothing special 5.3. Advice for firefighters Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Avoid direct contact with spilled substances. Avoid inhalation of vapours from spilled material. 6.2. Environmental precautions No specific requirements. 6.3. Methods and material for containment and cleaning up Use sand, sawdust, earth, vermiculife, diatomaceous earth to contain and collect non-combustible absorbern materials and place in container for disposal, according to local regulations. 6.4. Reference to other sections See Section on "Exposure of the same material as the original container. Containers that have been oppened must be earborage in protection' for information on personal protection. Avoid direct contact with the product. 7.2. Conditions for safe handling Mays store is containers of the same material as the original container. Containers that have been oppened must be carefull presended and kept upright to prevent leakage. Storage temperature Room temperature	Provide plenty of water for the person to drink and stay with him/her. In case of malaise, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the victim lean forward with head down to avoid inhalation of- or choking on vomited material.
<ul> <li>4.2. Most important symptoms and effects, both acute and delayed         This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs.         Exposure may result in an increased absorption potential of other hazardous substances at the area of         exposed or concerned: Get immediate medical advice/attention.         Information to medics         Bring this safety data sheet.         SECTON 5: Firefighting media         Recommended: alcohol-resistant foam, carbonic acid, powder, water mist.         S.2. Special hazards arising from the substance or mixture         Nothing special         S.4. Advice for firefighters         Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure         contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice. General recommendations Observe general occupational hygiene standards.	
Observe general occupational hygiene standards.	Control is unnecessary if the product is used as intended.

There is no appendix to this safety data sheet.	
Exposure limits	
Occupational exposure limits have not been define	ed for the substances in this product.
Appropriate technical measures	
Apply standard precautions during use of the prod	luct. Avoid inhalation of gas or dust.
Hygiene measures	
	e working day all exposed areas of the body must be
washed thoroughly. Always wash hands, forearms	s and face.
Measures to avoid environmental exposure	
Keep containment materials near the workplace. It	
Individual protection measures, such as personal pro	otective equipment
Generally	
Use only CE marked protective equipment.	
Respiratory Equipment	
No specific requirements.	
Skin protection	
No specific requirements.	
Hand protection	
Nitrile rubber	
Breakthrough time: > 480 minutes (Class 6)	
Eye protection	
Wear safety glasses with side shields.	
SECTION 9: Physical and chemical properties	
9.1. Information on basic physical and chemical prop	perties
Form	Liquid
Colour	Pale yellow
Odour	Mild
Odour threshold (ppm)	No data available.
рН	10
Viscosity (40°C)	No data available.
Density (g/cm <sup>3</sup> )	No data available.
Phase changes	
Melting point (°C)	No data available.
Boiling point (°C)	No data available.
Vapour pressure	No data available.
Decomposition temperature (°C)	No data available.
Evaporation rate (n-butylacetate = 100)	No data available.
Data on fire and explosion hazards	
Flash point (°C)	No data available.
Ignition (°C)	No data available.
Auto flammability (°C)	No data available.
Explosion limits (% v/v)	No data available.
Explosive properties	No data available.
Solubility	
Solubility in water	Soluble
n-octanol/water coefficient	No data available.
9.2. Other information	No data available
Solubility in fat (g/L)	No data available.
SECTION 10: Stability and reactivity	
10.1. Reactivity	

N	lo data available
10.2. C	chemical stability
Т	he product is stable under the conditions, noted in the section "Handling and storage".
	ossibility of hazardous reactions
	lothing special
	Conditions to avoid
	lothing special
	ncompatible materials
	trong acids, strong bases, strong oxidizing agents, and strong reducing agents.
	azardous decomposition products
	he product is not degraded when used as specified in section 1.
<b>SECTION 11</b>	: Toxicological information
11.1. lr	nformation on toxicological effects
Acute	e toxicity
S	ubstance: Benzenesulfonic,acid,C10-13-alkyl,derivs,sodium,salts
	pecies: Rat

In accordance with Regulation (EC) No. 1272/2008 (CLP) the evaluation of the classification of the mixture is based on: The classification of the mixture in regard of health hazards are in accordance with the calculation methods given by Regulation (EC) No. 1272/2008 (CLP) It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification. The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products. A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a blue triangle. The safety data sheet is validated by David Löwenstein Date of last essential change (First cipher in SDS version) Date of last minor change (Last cipher in SDS version)
