

General Prevention Response	If medical advice is needed, have product container or label at hand. (P101). Keep out of reach of children. (P102).
	Avoid release to the environment. (P273).
	Do NOT induce vomiting. (P331). IF SWALLOWED: Immediately call a POISON CENTER/doctor. (P301+P310).
Storage Disposal	- Dispose of contents/container to an approved waste disposal plant. (P501).
	es primarily responsible for the major health hazards 13, n-alkanes, isoalkanes, cyclics, < 2% aromatics
Unique formula identifie FMPX-TJ37-C00A-C2	<b>ər (UFI)</b> 205
2.3. Other hazards	
chemical pneumonia r	substances that can cause chemical pneumonia if inhaled. The symptoms of may appear after several hours.
Additional warnings	
	product is sold in retail, it must be delivered with child-resistant fastening.

ECTION 4: First aid measures	
4.1. Description of first aid	measures
General information	
	t: Contact a doctor or casualty department – take the label or this safety data sheet.

The doctor can contact The National Poisons Information Service: Dial 0344 892 0111 (24 h service). Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

### Inhalation

Bring the person into fresh air and stay with him/her. **V**Skin contact

Remove contaminated clothing and shoes immediately. Ensure to wash exposed skin thoroughly with soap and water.

#### Eye contact

Remove contact lenses. Flush eyes immediately with plenty of water or isotonic water (20-30°C) for at least 5 minutes and continue until irritation stops. Make sure to flush under the upper and lower eyelids. If irritation continues, contact a doctor. Continue flushing during transport.

#### Ingestion

Do not induce vomiting! If vomiting occurs, keep head facing down to prevent vomit entering the lungs. Call a doctor or ambulance. Symptoms of chemical pneumonia can appear after several hours. People who have swallowed the product should be kept under medical attention for a minimum of 48 hours.

**Burns** 

#### Not applicable

#### 4.2. Most important symptoms and effects, both acute and delayed

This product contains substances that can cause chemical pneumonia if inhaled. The symptoms of chemical pneumonia may appear after several hours.

4.3. Indication of any immediate medical attention and special treatment needed

IF exposed or concerned: Get immediate medical advice/attention.

# Information to medics

Bring this safety data sheet.

### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Recommended: alcohol-resistant foam, carbonic acid, powder, water mist.

### 5.2. Special hazards arising from the substance or mixture

# Nothing special

### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice.

### **SECTION 6: Accidental release measures**

#### **V** 6.1. Personal precautions, protective equipment and emergency procedures

Avoid direct contact with spilled substances.

#### 6.2. Environmental precautions

Avoid discharge to lakes, streams, sewers, etc. In the event of leakage to the surroundings, contact local environmental authorities. It is recommended to install waste collection trays to prevent emissions to the waste water system and surrounding environment.

### **V** 6.3. Methods and material for containment and cleaning up

Use sand, sawdust, earth, vermiculite, diatomaceous earth to contain and collect non-combustible absorbent materials and place in container for disposal, according to local regulations.

### 6.4. Reference to other sections

See section on "Disposal considerations" in regard of handling of waste. See section on 'Exposure controls/personal protection' for protective measures.

### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Smoking, storage of tobacco, consumption and storage of food or liquids are not allowed in the workrooms. It is recommended to install waste collection trays to prevent emissions to the waste water system and surrounding environment. See section on 'Exposure controls/personal protection' for information on personal protection. Avoid direct contact with the product.

# 7.2. Conditions for safe storage, including any incompatibilities

Always store in containers of the same material as the original container. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

#### Storage temperature

Room temperature 18 to 23°C

#### 7.3. Specific end use(s)

This product should only be used for applications quoted in section 1.2

### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

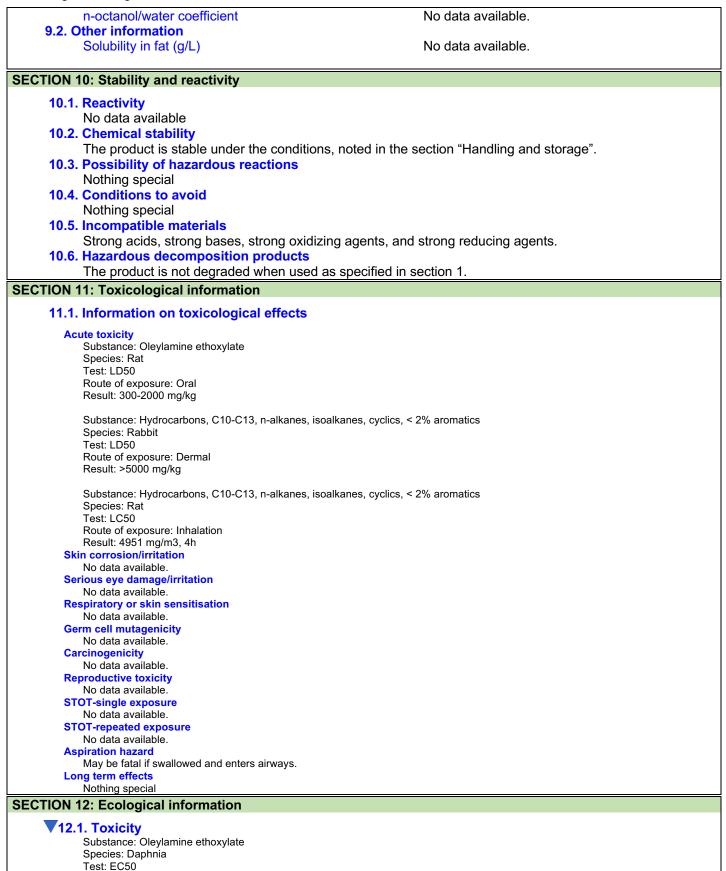

OEL

According to Lo regulation 2010/000	and the second				
No substances are listed in The Control of Substances Hazardous to DNEL / PNEC No data available	Health Regulations with an occupational exposure limit.				
8.2. Exposure controls					
Control is unnecessary if the product is used as intende	d.				
General recommendations					
Observe general occupational hygiene standards. Exposure scenarios					
There is no appendix to this safety data sheet.					
Exposure limits					
Occupational exposure limits have not been defined for the substances in this product.					
Appropriate technical measures					
Apply standard precautions during use of the product. Avoid inhalation of gas or dust.					
Hygiene measures					
In between use of the product and at the end of the working day all exposed areas of the body must be washed thoroughly. Always wash hands, forearms and face.					
Measures to avoid environmental exposure					
Keep containment materials near the workplace. If poss	ible, collect spillage during work.				
Individual protection measures, such as personal protecti					
Generally					
Use only CE marked protective equipment.					
Respiratory Equipment					
Skin protection					
Wear appropriate protection clothing, e.g. coveralls in p	olypropylene approved type 6 and Category III.				
Hand protection					
Nitrile rubber Breakthrough time: > 480 minutes (Class 6)					
Eve protection					
Wear safety glasses with side shields.					
SECTION 9: Physical and chemical properties					
9.1. Information on basic physical and chemical properties					
Form	Liquid				
Colour	Pale yellow				
Odour	Characteristic				
Odour threshold (ppm)	No data available.				
pH	No data available.				
Viscosity (40°C)	No data available.				
Density (g/cm <sup>3</sup> )	0.8				
Phase changes					
Melting point (°C)	No data available.				
Boiling point (°C)	No data available.				
Vapour pressure	No data available.				
Decomposition temperature (°C)	No data available.				
Evaporation rate (n-butylacetate = 100) No data available.					
Data on fire and explosion hazards					
Flash point (°C)	70				
Ignition (°C)	No data available.				
Auto flammability (°C)	No data available.				
Explosion limits (% v/v)	1 - 6				
Explosive properties No data available.					
Solubility Solubility in water	Incolubio				
Solubility in water	Insoluble				

Duration: 48 h Result: 0.1-1 mg/l

Council Directive 94/33/EC of 22 June 1994 on the protection of young people at work. Regulation (EC) No 648/2004 of the European Parliament and of the Council of 31 March 2004 on detergents.

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (CLP). Regulation (EC) 1907/2006 (REACH).

### 15.2. Chemical safety assessment

No

# SECTION 16: Other information

# **V**Full text of H-phrases as mentioned in section 3

H302 - Harmful if swallowed.

- H304 May be fatal if swallowed and enters airways.
- H318 Causes serious eye damage.
- H400 Very toxic to aquatic life.
- H410 Very toxic to aquatic life with long lasting effects.

EUH066 - Repeated exposure may cause skin dryness or cracking.

# The full text of identified uses as mentioned in section 1

# **Additional label elements**

Not applicable

### Other

In accordance with Regulation (EC) No. 1272/2008 (CLP) the evaluation of the classification of the mixture

is based on:
The classification of the mixture in regard of health hazards are in accordance with the calculation methods
given by Regulation (EC) No. 1272/2008 (CLP)
The classification of the mixture in regard of environmental hazards are in accordance with the calculation
methods given by Regulation (EC) No. 1272/2008 (CLP)
It is recommended to hand over this safety data sheet to the actual user of the product. Information in this
safety data sheet cannot be used as a product specification.
The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is
not necessarily correct for use with other chemicals/products.
A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked
with a blue triangle.
