

#### r. 1 - 12 004 5/000

cording to EC-Regulation 20	15/830
Prevention	Wash hands/exposed skin thoroughly after handling. (P264).
	Wear eye protection/gloves. (P280).
Response	If eye irritation persists: Get medical advice/attention. (P337+P313).
	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing. (P305+P351+P338).

4.1. Description of firs	t aid measures
General information	n
In the case of acc	cident: Contact a doctor or casualty department – take the label or this safety data shee
	ontact The National Poisons Information Service: Dial 0344 892 0111 (24 h service).
	if in doubt about the injured person's condition or if the symptoms persist. Never give ar
	son water or other drink.
lub eletter	

# Inhalation

Bring the person into fresh air and stay with him/her.

#### Skin contact

Remove contaminated clothing and shoes immediately. Ensure to wash exposed skin thoroughly with soap and water.

## Eye contact

Remove contact lenses. Flush eyes with plenty of water or salt water (20-30°C) for at least 15 minutes and continue until irritation stops. Make sure you flush under the upper and lower eyelids. Seek medical assistance immediately and continue flushing.

#### Ingestion

Provide plenty of water for the person to drink and stay with him/her. In case of malaise, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the victim lean forward with head down to avoid inhalation of- or choking on vomited material.

#### **Burns**

Not applicable

#### 4.2. Most important symptoms and effects, both acute and delayed

This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of exposure.

#### 4.3. Indication of any immediate medical attention and special treatment needed

IF exposed or concerned: Get immediate medical advice/attention.

Information to medics

Bring this safety data sheet.

#### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Recommended: alcohol-resistant foam, carbonic acid, powder, water mist.

## 5.2. Special hazards arising from the substance or mixture

If the product is exposed to high temperatures, e.g. in the event of fire, dangerous catabolic substances are produced. These are: Carbon oxides. Fire will result in dense black smoke. Exposure to combustion products may harm your health. Fire fighters should wear appropriate protection equipment. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

## 5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice.

#### **SECTION 6: Accidental release measures**

- 6.1. Personal precautions, protective equipment and emergency procedures
  - No specific requirements.

# 6.2. Environmental precautions

No specific requirements.

## 6.3. Methods and material for containment and cleaning up

Use sand, sawdust, earth, vermiculite, diatomaceous earth to contain and collect non-combustible absorbent materials and place in container for disposal, according to local regulations.

#### 6.4. Reference to other sections

See section on "Disposal considerations" in regard of handling of waste. See section on 'Exposure controls/personal protection' for protective measures.

## SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Smoking, storage of tobacco, consumption and storage of food or liquids are not allowed in the workrooms. See section on 'Exposure controls/personal protection' for information on personal protection.

## 7.2. Conditions for safe storage, including any incompatibilities

Always store in containers of the same material as the original container. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

# Storage temperature

Room temperature 18 to 23°C

# 7.3. Specific end use(s)

This product should only be used for applications quoted in section 1.2

## **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

	PNEC ((2-methoxymethylethoxy)propanol): 7.02 mg/kg/dwt Exposure: Marine water sediment
	PNEC ((2-methoxymethylethoxy)propanol): 2.74 mg/kg Exposure: Soil
	PNEC ((2-methoxymethylethoxy)propanol): 4168 mg/l Exposure: Sewage Treatment Plant
8.2. E	xposure controls
Ge	Compliance with the accepted occupational exposure limits values should be controlled on a regular basis.
	Observe general occupational hygiene standards.
Ex	posure scenarios
	There is no appendix to this safety data sheet.
Ex	posure limits
	Professional users are subjected to the legally set maximum concentrations for occupational exposure. See
٨٣	occupational hygiene limit values above. propriate technical measures
~P	Ensure emergency eyewash and -showers are clearly marked.
Hv	giene measures
· · · ·	In between use of the product and at the end of the working day all exposed areas of the body must be
	washed thoroughly. Always wash hands, forearms and face.
Me	easures to avoid environmental exposure
Indivi	No specific requirements.
mulvi	dual protection measures, such as personal protective equipment

According to EC-Negulation 2015/850				
Generally				
Use only CE marked protective equipment.				
Respiratory Equipment				
Recommended: A. Class 1 (low capacity). Brown				
Skin protection				
Wear appropriate protection clothing, e.g. coveralls in pol	ypropylene approved type 6 and Category III.			
Hand protection				
Nitrile rubber				
Breakthrough time: > 480 minutes (Class 6)				
Eye protection				
Wear safety glasses with side shields.				
SECTION 9: Physical and chemical properties				
9.1. Information on basic physical and chemical properties				
Form	Liquid			
Colour	Yellow			
Odour	Characteristic			
Odour threshold (ppm)	No data available.			
pH	No data available.			
Viscosity (40°C)	No data available.			
Density (g/cm <sup>3</sup> )	0.95			
Phase changes				
Melting point (°C)	No data available.			
Boiling point (°C)	No data available.			
Vapour pressure	No data available.			
Decomposition temperature (°C)	No data available.			
Evaporation rate (n-butylacetate = 100)	No data available.			
Data on fire and explosion hazards				
Flash point (°C)	88			
Ignition (°C)	No data available.			
Auto flammability (°C)	No data available.			
Explosion limits (% v/v)	No data available.			
Explosive properties	No data available.			
Solubility				
Solubility in water	Insoluble			
n-octanol/water coefficient	No data available.			
9.2. Other information	Nucleon and the			
Solubility in fat (g/L)	No data available.			
SECTION 10: Stability and reactivity				
10.1. Reactivity				
No data available				
10.2. Chemical stability				
The product is stable under the conditions, noted in the section "Handling and storage".				
10.3. Possibility of hazardous reactions				
Nothing special				
10.4. Conditions to avoid				
Do not expose to any forms of heat (e.g. solar radiation). May lead to excess pressure.				
10.5. Incompatible materials				
Strong acids, strong bases, strong oxidizing agents, and strong reducing agents.				
10.6. Hazardous decomposition products				
The product is not degraded when used as specified in section 1.				

# SECTION 11: Toxicological information 11.1. Information on toxicological effects

#### Acute toxicity

Substance: 2-(2-butoxyethoxy)ethanol Species: Rabbit Test: LD50 Route of exposure: Dermal Result: 2764 mg/kg

Substance: 2-(2-butoxyethoxy)ethanol Species: Mouse Test: LD50 Route of exposure: Oral Result: 2410 mg/kg

Substance: 2-(2-butoxyethoxy)ethanol Species: Rat Test: LD50 Route of exposure: Oral Result: >2000 mg/kg

Substance: 2-(2-butoxyethoxy)ethanol Species: Rat Test: LC50 Route of exposure: Inhalation Result: >29 ppm 2h

Substance: 1-(1-methyl-2-propoxyethoxy)propan-2-ol Species: Rat Test: LD50 Route of exposure: Dermal Result: 2000mg/kg

Substance: 1-(1-methyl-2-propoxyethoxy)propan-2-ol Species: Rat Test: LD50 Route of exposure: Oral Result: 2000mg/kg

Substance: (2-methoxymethylethoxy)propanol Species: Rabbit Test: LD50 Route of exposure: Dermal Result: 9510 mg/kg

Substance: (2-methoxymethylethoxy)propanol Species: Rat Test: LD50 Route of exposure: Oral Result: 5000 mg/kg

Substance: (2-methoxymethylethoxy)propanol Species: Rat Test: LC50 Route of exposure: Inhalation Result: 3.35 mg/l 7h ånga Skin corrosion/irritation Data on substance: 2-(2-butoxyethoxy)ethanol

Test: OECD Guideline 404 Organism: Rabbit Result: not irritating Serious eye damage/irritation

Causes serious eye irritation.

Data on substance: 2-(2-butoxyethoxy)ethanol Test: OECD Guideline 404 Organism: Rabbit Result: irritating **Respiratory or skin sensitisation** Data on substance: 2-(2-butoxyethoxy)ethanol Test: OECD Guideline 406 Organism: Guinea pig

According to EC Regulation 2015/020	Guainy chemicals

## Other

In accordance with Regulation (EC) No. 1272/2008 (CLP) the evaluation of the classification of the mixture is based on:

The classification of the mixture in regard of health hazards are in accordance with the calculation methods given by Regulation (EC) No. 1272/2008 (CLP)

It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification.

The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products.

A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a blue triangle.

The safety data sheet is validated by David Löwenstein Date of last essential change (First cipher in SDS version)

Date of last minor change (Last cipher in SDS version)
