

	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,			
Prevention Response	Keep out of reach of children. (P102). Do not breathe mist/vapours/fume/spray. (P260). IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. (P303+P361+P353).			
Storage Disposal	Store locked up. (P405). Dispose of contents/container to an approved waste disposal plant. (P501).			
Identity of the substances primarily responsible for the major health hazards potassium hydroxide; sodium hydroxide Additional labelling Not applicable Unique formula identifier (UFI) U7HQ-YN5J-500R-VDHH 2.3. Other hazards Not applicable Additional warnings Tactile warning. If this product is sold in retail, it must be delivered with child-resistant fastening. VOC (volatile organic compound) Not applicable

### **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

### **General information**

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet. The doctor can contact The National Poisons Information Service: Dial 0344 892 0111 (24 h service). Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

### Inhalation

Bring the person into fresh air and stay with him/her.

### Skin contact

Remove contaminated clothing and shoes immediately. Ensure to wash exposed skin thoroughly with soap and water.

### Eye contact

Remove contact lenses. Flush eyes with plenty of water or salt water (20-30°C) for at least 15 minutes and continue until irritation stops. Make sure you flush under the upper and lower eyelids. Seek medical assistance immediately and continue flushing.

### Ingestion

In the case of ingestion, contact a doctor immediately and bring the safety data sheet or label. If the person

<ul> <li>is conscious, give them water. DO NOT try to induce vomiting, unless this is recommended by a doctor. Hold head facing down to prevent vomit returning to the mouth and throat. Prevent shock by keeping the injured person warm and calm. Initiate immediate resuscitation if breathing stops. If unconscious, roll the injured person into recovery position. Call an ambulance.</li> <li>Burns Not applicable</li> <li>4.2. Most important symptoms and effects, both acute and delayed Tissue-damaging effects: This product contains substances with skin corrosive properties. Inhaled vapour or aerosols may produce adverse effects to lungs, -irritations and burns in the respiratory organs -as well as coughing. Dermal contact and contact with the eye cause irreversible effects. This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of</li> </ul>
exposure.
4.3. Indication of any immediate medical attention and special treatment needed IF exposed or concerned: Get immediate medical advice/attention.
Information to medics
Bring this safety data sheet.
SECTION 5: Firefighting measures
5.1. Extinguishing media
Recommended: alcohol-resistant foam, carbonic acid, powder, water mist.
5.2. Special hazards arising from the substance or mixture
If the product is exposed to high temperatures, e.g. in the event of fire, dangerous catabolic substances are
produced. These are: Some metal oxides. Fire will result in dense black smoke. Exposure to combustion products may harm your health. Fire fighters should wear appropriate protection equipment. Closed
containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to
enter the sewage system and nearby surface waters.
5.3. Advice for firefighters
Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice.
SECTION 6: Accidental release measures
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Avoid direct contact with spilled substances. Avoid inhalation of vapours from spilled material.
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Avoid direct contact with spilled substances. Avoid inhalation of vapours from spilled material. 6.2. Environmental precautions
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Avoid direct contact with spilled substances. Avoid inhalation of vapours from spilled material.

DNEL (potassium hydroxide): 1mg/m3 Exposure: Inhalation Duration of Exposure: Long term – Local effects - Workers

DNEL (potassium hydroxide): 1mg/m3

Exposure: Inhalation Duration of Exposure: Long term – Local effects - General population

#### 8.2. Exposure controls

Compliance with the accepted occupational exposure limits values should be controlled on a regular basis. General recommendations

Observe general occupational hygiene standards.

### Exposure scenarios

There is no appendix to this safety data sheet.

### **Exposure limits**

Professional users are subjected to the legally set maximum concentrations for occupational exposure. See occupational hygiene limit values above.

### **Appropriate technical measures**

Ensure emergency eyewash and -showers are clearly marked.

### **Hygiene measures**

In between use of the product and at the end of the working day all exposed areas of the body must be washed thoroughly. Always wash hands, forearms and face.

### Measures to avoid environmental exposure

Keep containment materials near the workplace. If possible, collect spillage during work.

Individual protection measures, such as personal protective equipment

## Generally

Use only CE marked protective equipment.

## **Respiratory Equipment**

No specific requirements.

# Skin protection

Dedicated work clothing should be worn. Wear a protective suit in the event of prolonged periods of work with the product.

# Hand protection

Household gloves

Breakthrough time: > 480 minutes (Class 6)

## Eye protection

Wear safety glasses with side shields.

According to EC-Regulation 2015/830	
SECTION 9: Physical and chemical properties	
9.1. Information on basic physical and chemical pro	perties
Form	Liquid
Colour	Clear
Odour	Characteristic
Odour threshold (ppm)	No data available.
pH	13,9
Viscosity (40°C)	No data available.
Density (g/cm <sup>3</sup> )	1.14
Phase changes	1.17
Melting point (°C)	No data available.
Boiling point (°C)	No data available.
Vapour pressure	No data available.
Decomposition temperature (°C)	No data available.
	No data available.
Evaporation rate (n-butylacetate = 100)	NO Udla avaliable.
Data on fire and explosion hazards	Ne data available
Flash point (°C)	No data available.
Ignition (°C)	No data available.
Auto flammability (°C)	No data available.
Explosion limits (% v/v)	No data available.
