

rding to EC Degulation 2015/020

Prevention	Wash hands/exposed skin thoroughly after handling. (P264).
_	Wear eye protection/gloves. (P280).
Response	If eye irritation persists: Get medical advice/attention. (P337+P313).
	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing. (P305+P351+P338).

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet. The doctor can contact The National Poisons Information Service: Dial 0344 892 0111 (24 h service). Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

Inhalation

Bring the person into fresh air and stay with him/her.

 Remove contaminated clothing and shoes immediately. Ensure to wash exposed skin thoroughly with scap and water. Eye contact Remove contact lenses. Flush eyes immediately with plenty of water or isotonic water (20-30°C) for at least 5 minutes and continue until irritation stops. Make sure to flush under the upper and lower eyelids. If irritation continues, contact a doctor. Continue flushing during transport. Ingestion Provide plenty of water for the person to drink and stay with him/her. In case of malaise, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the victim lean forward with head down to avoid inhalation of- or choking on vomited material. Burns Not applicable 4.9. Most important symptoms and effects, both acute and delayed This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of exposure. 4.3. Indication of any immediate medical attention and special treatment needed If exposed or concernet: Get immediate medical advice/attention. Information to medics Bring liss safety data sheet. SECTION 5: Firefighting measures 5.1. Extinguishing media Recommended: alcohel resistant foam, carbonic acid, powder, water mist. 5.2. Special hazards arising from the substance or mixture If the product is exposed to high temperatures, e.g. in the event of fire, dangerous catabolic substances are produced. These are: Carbon exides. Fire will result in dense black smoke. Exposure to combustion products may ham your health. Fire fighters should wear appropriate protection equipment. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to estoric the swapes eystem an	Skin contact
Remove contact lenses. Flush eyes immediately with plenty of water or isotonic water (20-30°C) for at least 5 minutes and continue until irritation scores. Make sure to flush under the upper and lower eyelids. If irritation continues, contact a doctor. Continue flushing during transport. Ingestion Provide plenty of water for the person to drink and stay with him/her. In case of malaies, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the victim lean forward with head down to avoid inhalation of- or choking on vomited material. Burns Not applicable 42. Most important symptoms and effects, both acute and delayed This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure any result in an increased absorption potential of other hazardous substances at the area of exposure. 43. Indication of any immediate medical attention and special treatment needed IF exposed or concerned: Get immediate medical advice/attention. Information to medics Bring this safety data sheet. 55. Extinguishing media Recommended: alcohol-resistant foam, carbonic acid, powder, water mist. 52. Special hazarda arising from the substance or mixture If the product is exposed to high temperatures, e.g. in the event of fire, dangerous catabolic substances are produced. These are: Carbon oxides. Fire will result in dense black smoke. Exposure to combustion product for her existing users sub-used waters. 53. Advice for firefighters 64. Personal precations, protective equipment and emergency procedures No specific requirements. 54. Extinguishing metains growtabus and protective clothing to prevent contact. Upon direct exposure contact the National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice. 55. Advice for firefighters No specific requirements. 54. Concidental release measures 55. Advice for informisons Information Service (dial 111, 24 h senvice) in order to	
 least 5 minutes and continue until irritation stops. Make sure to flush under the upper and lower eyelids. If irritation continues, contact a doctor. Continue flushing during transport. Ingestion Provide plenty of water for the person to drink and stay with him/her. In case of matalise, seek medical advice immediately and bring the safety data sheet or label from the product. 	The product is not degraded when used as specified in section 1.
SECTION	11: Toxicological information
11.1	. Information on toxicological effects
A	cute toxicity
	Substance: 2-(2-butoxyethoxy)ethanol
	Species: Rabbit
	Test: LD50
	Route of exposure: Dermal Result: 2764 ma/kg
	Kesuli. 2704 hig/kg
	Substance: 2-(2-butoxyethoxy)ethanol
	Species: Mouse
	Test: LD50
	Route of exposure: Oral
	Result: 2410 mg/kg
	Substance: 2-(2-butoxyethoxy)ethanol
	Species: Rat
	Test: LD50
	Route of exposure: Oral Result: >2000 mg/kg
	Nesuli. Zuuu Highy
	Substance: 2-(2-butoxyethoxy)ethanol
	Species: Rat
	Test: LC50
	Route of exposure: Inhalation Result: >29 ppm 2h
	Result. >29 ppm 2m
	Substance: 1-(1-methyl-2-propoxyethoxy)propan-2-ol
	Species: Rat
	Test: LD50
	Route of exposure: Dermal Result: 2000mg/kg
	Kesui. 2000ing/kg
	Substance: 1-(1-methyl-2-propoxyethoxy)propan-2-ol
	Species: Rat
	Test: LD50
	Route of exposure: Oral
	Result: 2000mg/kg
	Substance: (2-methoxymethylethoxy)propanol
	Species: Rabbit
	Test: LD50
	Route of exposure: Dermal
	Result: 9510 mg/kg
	Substance: (2-methoxymethylethoxy)propanol
	Species: Rat
	Test: LD50
	Route of exposure: Oral
	Result: 5000 mg/kg
	Substance: (2-methoxymethylethoxy)propanol
	Species: Rat
	Test: LC50
	Route of exposure: Inhalation
C	Result: 3.35 mg/l 7h ånga sin corrosion/irritation
5	Data on substance: 2-(2-butoxyethoxy)ethanol
	Test: OECD Guideline 404
	Organism: Rabbit
-	Result: not irritating
S	courses exclose serious ever irritation
	Causes serious eye irritation.
	Data on substance: 2-(2-butoxyethoxy)ethanol
	Test: OECD Guideline 404

Organism: Rabbit Result: irritating Respiratory or skin sensitisation Data on substance: 2-(2-butoxyethoxy)ethanol Test: OECD Guideline 406 Organism: Guinea pig **Result: Negative** Germ cell mutagenicity No data available. Carcinogenicity No data available. **Reproductive toxicity** No data available. STOT-single exposure No data available. STOT-repeated exposure No data available. Aspiration hazard No data available. Long term effects This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of exposure. **SECTION 12: Ecological information** 12.1. Toxicity Substance: 2-(2-butoxyethoxy)ethanol Species: Daphnia Test: EC50 Duration: 48h Result: >100 mg/l Substance: 2-(2-butoxyethoxy)ethanol Species: Fish Test: LC50 Duration: 96h Result: >100 mg/l Substance: 2-(2-butoxyethoxy)ethanol Species: Algae Test: EC50 Duration: 96h Result: >100 mg/l Substance: 1-(1-methyl-2-propoxyethoxy)propan-2-ol Species: Daphnia Test: EC50 Duration: 48h Result: >100mg/l Substance: 1-(1-methyl-2-propoxyethoxy)propan-2-ol Species: Fish Test: LC50 Duration: 96h Result: >100mg/l Substance: 1-(1-methyl-2-propoxyethoxy)propan-2-ol Species: Algae Test: EC50 Duration: Result: >1000mg/l Substance: (2-methoxymethylethoxy)propanol Species: Daphnia Test: NOEC Duration: 22d Result: 0.5 mg/l Substance: (2-methoxymethylethoxy)propanol Species: Daphnia Test: EC50 Duration: 48h Result: 1919 mg/l

Other

In accordance with Regulation (EC) No. 1272/2008 (CLP) the evaluation of the classification of the mixture is based on:

The classification of the mixture in regard of health hazards are in accordance with the calculation methods given by Regulation (EC) No. 1272/2008 (CLP)

It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification.

The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products.

A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a blue triangle.

The safety data sheet is validated by

David Löwenstein

Date of last essential change (First cipher in SDS version)

Date of last minor change (Last cipher in SDS version)
